WASHINGTON.

Getting Ready for the Meeting
of Congress.

Governmental and Law-Mak-
ing Affairs of the
Nation.

Washington, 2.—On the resumption
of Congress, next Tuesday, the first busi-
ness that will be taken up in the House
will be the report of the committee on
rules, the debate on which promises to be
quite extended.

It is expected that Chairman Springer,
of the elections committee, will have two
or three contested election cases to report
soon after the revival of rules shall be
disposed of.

The ways and means committee will
immediately take up for consideration
the bill for the funding of the 5 and 6 per cent. bonds
of 1881, and Chairman Wood's conflicting
proposition, limiting the secretary of the
treasury to an issue of bonds bearing not
higher rate of interest than 3 1/2 per cent.

The committee on appropriations is
expected to report Marshall's efficiency bill
next week, and its consideration is likely
to provoke a repetition to some extent of
the political debate of last session.

The banking and currency committee
expect to take a vote next week on the
Fort resolution, which in substance de-
clares the expediency of letting well
enough alone in all matters of currency.

The Senate finance committee will also
next week, either earlier or later, and be
confronted with the various im-
portant questions raised by the Bayard
resolution, the Warner silver bill, the
bill for the redemption of free dollars,
etc.

It is understood that a movement will
be made at an early day in the House of
Representatives, to induce the foreign
affairs committee to formulate a bill very
materially abridging the present diplo-
matic system, by wholly cutting off a
number of foreign missions.

Regan, of Texas, chairman of the
House committee on commerce, believes
that the session will not be brief. The
subjects of inter-state commerce, shipping
and others are too important to be dis-
posed of hastily.

Blount, acting chairman of the com-
mittee on appropriations, reports that good
progress has been made and that prompt
action may be expected on the naval ap-
propriation bill.

It is stated on good authority that the
state department will make a proper re-
turn in due season, to the resolution of
the House of Representatives, calling for
the correspondence with Consul Messey.

The story that the state department will
decline for reasons of public expediency,
to furnish the correspondence referred to,
is likely to be unfounded.

Chairman Atkins, of the House com-
mittee on appropriations, is improving
slowly. Although he is a great sufferer,
his physicians do not expect a serious re-
sult, unless the erysipelas should strike
in, and of this there is, at present, no ap-
parent danger.

New York, 3.—Herald's Washington:
The House committee on appropriations
has received a letter from the postmaster
general, transmitting one from Assistant
Postmaster General Brady, in regard to
star service, which shows that this branch
of the service is now costing at the rate
of \$1,727,000 above the appropriation.

The annual cost of the present service
is stated to be \$7,000,000, although the
appropriation is only \$5,000,000. General
Brady says without the appropriation, which
he asks for, which is about \$2,000,000,
he will be obliged to curtail the
service in order to bring the cost within
the existing appropriation.

He suggests that \$2,000,000 be given him
from the unexpended balances of the past
four years. This Brady says, will enable
the department to maintain the present
service and besides afford a margin for a
reasonable and necessary increase during
the remaining half of the fiscal year.

The Fire Record.

Hancock, Mich., 2.—The Quincy
mine rock house burned last night. Loss,
\$60,000 uninsured. It was used for
storing rock copper.

Havana, 2.—A heavy fire destroyed the
cane fields on the plantation called
"Sonora," near Quivican. Probably in-
cidental.

Baltimore, 2.—A fire broke out to-
night in the four-story warehouse of
Hennrichs, Bismarck, Block.

Wharf, containing several thousand
bales of cotton, and is at this hour (10:30
p.m.) burning fiercely. The entire de-
partment has been called out, but owing to
the location of the warehouse on the
wharf, between two docks, and bounded
by very narrow streets, not more than
four or five engines can be brought to
bear upon the fire. Probably, however, it
will be confined to the warehouse. Sev-
eral daring firemen who ventured in the
building were overcome by suffocation,
but rescued and borne out.

Edison's Illuminator.

New York, 3.—The Graphic, speaking
of the remarkable rise in the Edison elec-
tric light shares, says as high as \$4,500
has been paid for one share of the stock.
Inside holders will not sell at that price,
preferring to take the chances of their at-
taining much higher value. About \$3,000
is bid to-day for the stock. The Graphic
notes the fact that among the forty-five
lamps now placed on exhibition at Menlo
Park, several are already burning a little
dull.

The Criminal Calendar.

Chicago, 2.—City detectives arrested
the notorious burglar, Rock Casman, to-
day. He was first arrested for a \$4,000
theft from the Rock Bros. dry goods store,
preparing to take the chances of their at-
taining much higher value. About \$3,000
is bid to-day for the stock. The Graphic
notes the fact that among the forty-five
lamps now placed on exhibition at Menlo
Park, several are already burning a little
dull.

Matters in Madrid.

Madrid, 2.—It is thought probable that
Canovas Del Castillo will assume the
portfolio of minister of the interior, hold-
ing it in conjunction with the post of pre-
sident of the council, Robledo, the present
minister of the interior, succeeding
Ayala, deceased.

Government continues to prosecute the
opposition press. Seventeen journals in
Madrid and eleven in the provinces are
awaiting sentence.

Senatorial.

Chicago, 3.—Journal's Washington:
Senator Whyte, of Maryland, announces
that he will be a candidate for re-election.
Alabama democrat says L. Pope
Walker is the man, who after
Walker was fired on, declared that within
thirty days the Confederate flag would be
floating over the dome of the Capitol at
Washington. He holds extreme views.

Dying.

London, 2.—A Paris dispatch an-
nounces that Compose, Wagner, is
seriously ill at Bayreuth.

London, 3.—The Gallien Messenger,
states that Richard Wagner, composer,
is dying.

Paris, 3.—Count Bismarck Deman-
tiev, life senator, is in a critical state of
health. The count was formerly minister
of the interior under Louis Philippe.

THE UTES.

Lack of Definite Information—
A Mixed Up Mass Generally.

Washington, 2.—At the cabinet meeting
this afternoon there was some discussion
in regard to the Ute difficulty, but in
view of the obscurity of the recent dis-
patches on this subject it was concluded
to postpone its further consideration to
await the receipt of more definite infor-
mation.

Secretary Schurz, at a late hour to-
night, received a telegram from General
Hatch, dated Lake City, to-day. It re-
ports that he has brought several Indian
chiefs from the reservation to Lake City
with him; that they are held by him for
the purpose of preventing any demonstra-
tion of their own kind, and that he de-
sires to take them to the military camp
at Garfield, and if deemed advisable to
send one of them back to see whether
surrender cannot still be effected. He
expresses the hope that this may yet be
accomplished. The dispatch does not
clear up the uncertainty as to the
dispatch by telegraph, requesting Secretary
Schurz immediately to reply to the dis-
patch of General Hatch, or if they have
been released? Also, what chiefs
are still in General Hatch's power, and
what bands? Also, whether there is any
possession of General Hatch now getting
into the hands of the Utes, and the son
of Douglas and other culprits of im-
portance, who were recently offered for
surrender? His proposition to take the
Indians over with him to Camp Garfield
is approved, and he is requested to say
what, in his opinion, can be done by the
army of Washington authorities to
bring about a complete surrender, and
aid him.

Schurz telegraphs that he will send to
General Hatch a dispatch to be read to
the Indians, and that he will also send
the Indians to his reservation, immediately
after his answer to the foregoing in-
quiry has been received here.

Washington, 2.—Governor Hunt,
of Colorado, has received the following
telegram: Alamosa, Colo., January 2d.
General Hatch left Lake City this morn-
ing with Jack, Soward, Ours, Joliet,
Uncle Sam and nine other Ute companions.
Buckley, a hard-headed and crafty southerner
Ute, all coming in with Saguaque.

(Signed) ALVA ADAMS.

DOLLARS AND CENTS.

Facts and Figures Concerning
The Government Finances.

Washington, 3.—During December the
treasury department paid \$17,500,000 on
account of arrears of payments.

Receipts from Internal Revenue for the
six months ending December 31st,
1879, the first six months of the current
fiscal year, were \$61,660,621 and from
customs \$87,713,760.

Foreign payments of the currency
executed at United States mints during
December, 77,900,000 pieces; value,
\$9,457,000 dollars; silver, \$3,834,200 pieces;
value, \$3,834,200 dollars; gold, 4,100,
250 pieces; value, \$41,433; total coinage,
6,976,310 pieces; value, \$8,570,400.

In the treasury circular of January 1st,
1880, proclaiming the estimates of
value of foreign coins in the United States
money of account, the value of silver
coins was estimated at \$2,094,100 and
value compared with the gold dollar
as the unit of value, and the following
changes from the values as stated in the
circular of 1879 appear: The Austrian
dollar is estimated at \$1.30410 cents. The
dollar of Central America, United States
of Colombia, Ecuador, Peru and Bolivia
is reduced from \$0.50410 to \$0.50410
cent. The dollar of Mexico from 101-
0010 to 99.9910 cents. The rupee of
India, from 16.70910 to 16.70910 cents.
The rouble of Russia from 74.8010 to
66.9910. The mahab of Tripoli from
84.4010 to 74.8010 cents. The gold
dollar of the Netherlands is taken as a
monetary unit at \$0.20410 cents.

The treasury department announces the
purchase of 100,000 ounces of silver for
the Philadelphia mint.

The consolidated report of receipts
from internal revenue for the six months
ended November 30th, 1879,
shows an aggregate increase compared
with the same period last year of \$1,315,-
072. The treasury department for the
month of December, show increase in the
receipts for the month, of \$1,088,714, as
compared with the same month last year;
making the aggregate increase for the
six months, \$2,004,386.

Business Failures.

New York, 3.—The excitement con-
tinues among creditors and depositors of
the broken Grocers' Bank, Mr. Stephen
Y. White, receiver, and calling the
present since early morning collecting the
assets. White says he had already de-
posited \$120,000 and that the remaining
assets would more than cover the claims
of creditors and depositors. The
losers will be stockholders. He believed
that the receiver was largely in the
wrong, in connection with J. Lloyd
Haight's indebtedness.

The Evening Post says, reports that
the bank held a large quantity of forged
papers as security for loans were
repeated this morning with greater
emphasis and were again called by
creditors who naturally would deny them
if unfounded. It is alleged that the
bank not only lent nearly \$100,000
upon such securities, but was to have
been forced by one of its principal cus-
tomers, but that it has obtained money
from other banks by redepositing the
paper. The receiver has had all the
cash in the bank removed to the vaults
of the Bank of North America for greater
safety.

Memphis, 2.—Mr. Sampson, wholesale
clothing, made assignments this morning.
The creditors are principally in New
York. He is believed to have been a
trustee. Liability, about \$75,000; assets
not stated.

The Lesseps Ovation.

New York, 3.—Herald's Panama: The
city is brilliantly illuminated in honor of
Ferdinand Lesseps.

World's Panama: I am informed to-
day that Lesseps has refused the overtures
for a fun of his canal scheme with a
canal through Nicaragua. He states that
he has no fears of any competition to be
inaugurated under Grant. It is asserted
today that Lesseps will be ready to
make his report on the validity of the
survey within the next twenty days.
The canal is the sending in of that
report it is expected that the formation of
a Panama company as the new canal
company, I believe, is to be called,
in order, as Lesseps says to give
it, like the canal of Suez, a historical
name, will be formally announced. Les-
seps has reason to expect support from
a large number of capitalists, and the
company. He much deprecates the over-
cautious abstention, as he regards it, of
the United States from the boom at
the rights of the United States and of
American citizens are fully protected by
the treaty of 1846 with the government of
New Granada, now the United States of
Colombia.

The Beer Business.

London, 3.—A dispatch dated Cape
Town, December 16, says: Sir George
Woolley has telegraphed to Sir Bartle
Frere not to believe alarming reports
from Transvaal. Harveys there was great
want of unanimity among the boers at
their recent meeting at which a resolution
was adopted in favor of maintaining the
demand for the independence of Trans-
vaal.

Cuban Reception of Grant.

Havana, 2.—Cuban authorities are
making arrangements to give General
Grant a fitting reception. Captain
General Blanco being absent from the
city he has ordered his confidential adju-
tant to receive General Grant and tender
him the hospitality of the palace, where
apartments are being prepared for his
reception.

TURKEY.

Quarrelling over the Priest
A Fair.

London, 2.—A Constantinople dis-
patch confirms the account of a corres-
pondent of the Manchester Guardian,
of what transpired at an interview on
Wednesday between Minister Sogud and
the Sultan. The priest, Ahmed Tewfik,
will be removed temporarily to a town in
the interior to secure him against pos-
sible popular violence. The minister of
police has given a satisfactory explana-
tion regarding the treatment of Mr.
Koster and the priest.

The Porte has sent a dispatch to its
representatives abroad denying the state-
ment telegraphed on December 26, from
Vienna, to the effect that Ahmed Tewfik
was expressing his dissatisfaction at the
cession of Gushik and Plava, to Montie-
negro, by plundering and burning Greek
churches and houses of Christians in
Priens. On the contrary perfect order
reigns in Priens, and it is the towns
subject to the Montenegro frontier.

Vienna, 2.—Notwithstanding the
assertions of the Porte to the contrary,
the Priest Ahmed Tewfik really been
sentenced to death, not by ordinary
judges but by the ecclesiastical tribunal.
The prefect of police has voluntarily
resigned.

RUSSIA.

St. Petersburg, 2.—Wolujeff has been
appointed to succeed Count Paul Ignatieff
as president of the ministerial committee
and member of the council of state.

Vienna, 2.—Immense quantities of war
material have been sent by way of
Odessa for the expedition to Meru.

A number of Russian officers have re-
cently been imprisoned upon charges of
complicity in the nihilist movement.

Various instances are given of arrests of
officers. Polish newspapers report the
recent arrest of over 100 nihilists in War-
saw.

Berlin, 3.—In consequence of the re-
volutionary agitation extending to the
troops, the Russian military authorities
order no regiment stationed in a district
where recruited.

Gotham Gossip.

New York, 3.—Mrs. Peckham, of San
Francisco, speaks on temperance, at Hav-
erly's Theatre, to-morrow.

George W. Edge, of Jersey City, a
well-known manufacturer of wire works,
died.

Parnell and Dillon received a Boston
delegation to-day; also an address from
men of South.

Members of the Produce Exchange are
circulating a petition for signatures that
there may be another ballot on the cen-
tral question of resending the
rule by which it was adopted.

Hopeful Republicans.

Washington, 2.—The adjournment of
the South Carolina legislature without
passing a registration law is a matter of
contingent among republicans of
that state. The bill drew up and sub-
mitted to the legislature, if it had been
passed, would practically have disfran-
chised one-third of the population of the
state. The matter must now go over un-
til next winter, and republicans think
there is a chance of carrying the state for
the republican political ticket.

Emery's Case.

New York, 3.—Times' Washington:
It is expected that Governor Emery, of
Utah, will arrive in this city to-morrow,
as he left Salt Lake on December 29th,
and that he will not appoint a
successor until the Governor shall have
had an opportunity to refuse, among the
charges, the serious one that he signed
the repeal of the law punishing "volun-
tary" desertion, morality and decency,"
friends of Governor Emery having denied
that he had anything to do with the
repeal of such law.
